LILLIE'S FAVORITE THINGS

- THE NEW MILL ST- It is absolutely gorgeous. Come take a stroll!
- CITRONELLA- Mosquitos devour me- we have some fun products to keep them away!
- S'MORES- I fell in love with s'mores as a kid when we would camp and I still love them!
- TRAVEL MUST HAVES- As I pack for my summer travels, I have my favorites ready to go- a jumper and dress in wrinkle-free fabrics, white tennis shoes and my favorite sling bag!

Mill Street in Downtown Grass Valley is looking gorgeous! All of the planters are filled with trees and flowers and the cobblestone street is stained and open. The string lights go up this month. If you haven't come down in a while, you should put it on your to-do list.

I promise, you won't be disappointed!

THE NEW MILL ST

open daily 10am-6pm

SEA SALT CITRONELLA

Sea Salt Citronella is our favorite way to keep the skeeters away this summer! Beautiful packaging on the candles and incense, but the best part.....THEY WORK!!

We also have BITE LITE candles which we have carried for years. They are lemongrass and spearmint, which are natural insect repellants, in 100% pure soy wax. Great if you aren't a fan of the traditional citronella smell.
